Numb. 3433

The London Gazette.

Published by Authority.

From Monday October 3. to Thursday October 6. 1698.

Genoua, Sept. 21. *N. S.*

THE Squadron of French Gallies, Commanded by the Bailly of *Noailles*, arrived here yesterday from *Naples*; and to morrow they will sail again for *Marseilles*.

Lemberg, Sept. 17. The Forces of this Crown marched on the 8th of this Month from *Monasterzick* to *Podaize*; but were hardly encamped, when the Tartars advanced with their whole Force, being about 50000 Men, and attack'd them: Our Troops were at first put into some disorder, and the Enemy set fire to the Suburbs of the Town of *Podaize*; and having taken some of our Baggage, and several Prisoners retired again. The next day the Polanders put themselves, in order of Battel, and the Tartars, renewed the Engagement with a great deal of Fury. It lasted 8 hours, and our Troops, who were not above 7000 strong, defended themselves very well; and at last the Enemy retired towards *Caminiec*. We have yet no particular account of the number of the Slain, and of the Prisoners on either side; only 'tis said that on ours several Officers are missing. The King was then at *Brezesnau* with his German Forces; and having received advice of this Action, gave Orders immediately for the Army to march to join the Forces of *Poland*. Part of the Forces of *Lithuania*, Commanded by General *Wislinsky*, are on their march to do the like.

From the Imperial Camp near Berzkerk, *Sept.* 19. On the 13th of this Month our Foot repassed the *Begle*, as the Horse did the 14th, and the Army encamped on the other side that River. The same day we received an account from *Peter-Waradin*, that the Ottoman Army, Commanded by the Grand Visier, encamped the 13th instant near *Belgrade*, where the Cham of *Tartary* arrived some days before: That they were encamped along the *Save*, and were making a Bridge of Boats over that River; and had repaired their Bridge over the *Danube*, and sent a Detachment of 4000 Men on this side the River to guard the same. On the 16th Colonel *Deak*, who was sent two days before with a Party of *Hussars* towards *Temeswaer*, returned to the Camp, and brought an account that he had engaged a Party of that Garrison, and taken some Prisoners, who informed him that Provisions were grown very scarce, and that they expected to be shortly supply'd from *Belgrade*. That day a Detachment was sent with Fascines to repair the Ways between the Camp and *Sablia*, from whence we receive most of our Provisions; and another Party of 300 Men was commanded to guard the Bridge of Boats over the *Theysse*, which keeps the Communication with that Place; and some Troops were posted likewise along the River-side, to secure the Passage thither by Water. On the 17th, Prince *Eugene* of *Savoy* having received advice from the Turkish Army near *Belgrade*, that a strong Party was gone from their Camp, with a considerable Supply of Ammunition and Provisions towards *Temeswaer*, and were to pass over the *Danube* the 16th, left the Command of all the Foot, and a Detachment of 1600 Horse to General *Heister*, and went himself with all the rest of the Horse, to endeavour to intercept this Convoy.

Vienna, Sept. 27. My Lord *Paget*'s Secretary is come hither again from *Belgrade*, to acquaint this Court with his Excellency's arrival at that Place; and has brought a Message from the Grand Visier, concerning the Negociations for a Peace, which shews the good Disposition they are in on that side to bring the same to a speedy conclusion: Whereupon the Ambassadors of the Emperor, *Venice*, and *Muscovy*, are ordered to hasten their departure; and accoringly they will, in 2 or 3 days, begin their Journey to *Hungary*, their Equipages being already sent away. An Express arrived here from the Palatine of *Posen*, the King of *Poland*'s Ambassador for the said Treaty, with an account of his arrival at *Buda*. The Place of Congress is appointed between *Peter-Waradin* and *Satankemen*, and a House all of Wood is building there for that purpose; which is so contrived, that all dispute about the Rank in the Room where they are to meet may be avoided. Our Advices from *Hungary* say, the Imperial Army, Commanded by Prince *Eugene* of *Savoy*, continues encamped at *Berzkerke*, and the Turks near *Belgrade*. The Letters from *Transilvania* give an account, That the Body of Forces Commanded by General *Rabutin*, marched the 10th of this Month from *Deva* (where they had continued some days) to *Dobra*; the 11th they proceeded to *Winten*, and the 12th they encamped between *Mullenbach* and *Reismark*. These Letters add, That the Garrison of *Temeswaer* was in great want of Provisions. We have advice by the way of *Valachia*, That the Muscovites have made an Irruption in *Tartary*, and had defeated a considerable Body of Tartars, who would have opposed them.

Francfort, Octob. 5. The Elector Palatine left this Place the 29th of last Month, and is returned to *Weinheim*. The Evacuation of *Brisac* being fix'd for the 7th instant, Prince *Lewis* of *Baden* is gone thither from *Walduth*, where he has continued some days; and after having taken Possession of that Place, he intends to visit *Fribourg*, *Rhinfeldt*, and the Fort of *Kiel*.

Gour, Octob. 8. His Majesty continues at this Place with the Duke of *Cell*. The Elector of *Hanouer* is expected here this Evening. My Lord *Lexington* is come to *Linghen* in his way hither.

Brussels, Octob. 9. The Electoress of *Bavaria* returned hither last night from *Holland*, and was met about a mile out of Town by the Elector, accompanied by several Persons of Quality. Monsieur *Dickvelt* has been to confer with the Pensioner of *Holland* at *Moordyk*, and is come back hither. The States of *Brabant* are assembled to consider of raising the Supply demanded of them. The Baron *d'Itre* is on his departure for *Paris*, whi-
